- a) The specifications are descriptive of the work being done or that will be done;
- b) Identifiable differentials are set forth among classes that are sufficiently significant to permit the assignment of individual positions to the appropriate class;
- c) Reasonable career promotional opportunities are provided;
- d) The specifications provide a reasonable and valid basis for selection screening by merit examinations;
- e) All requirements of the positions are consistent with classes similar in difficulty, complexity and nature of work; and
- f) The relation of the class specifications to any applicable collective bargaining agreement.

**B. Shift Supervisor (revise)**

Regarding Item B, Barris reported the proposed revision was due to unclear language that caused issues with finding viable candidates and DOC, CMS, and the OEIG worked together to find a solution in using more appropriate language like “as a supervisor or lead worker of correctional employees” to clear up any ambiguity regarding the responsibilities of positions within the class.
